Globalisation and African Languages links African language studies to the concept of 'globalisation' which increasingly undergoes critical review. Hence, African linguists of various provenience can make valuable contributions to this debate. In cultural matters, which by definition include language, there is often a sense that globalisation leads to a major trend of homogenisation, which results in a reduction of diversity on the one hand and, on the other, in new themes being incorporated into global (cultural) patterns. However, often conflicting and overlapping particularistic interests exist which have a constructive as well as destructive potential. This aspect leads directly to the first of three sections of this volume, LANGUAGE USE AND ATTITUDES, which addresses some of the burning issues in sociolinguistic research. Since this research area is tightly linked to the educational domain these important issues are addressed in articles that comprise the second section of this volume: LANGUAGE POLICY AND EDUCATION.

The third section of the volume presents articles dealing with LANGUAGE DESCRIPTION AND CLASSIFICATION demonstrating which parts of different language systems are affected through contact under historical and modern conditions. The contributions of all the well-known scholars in this volume show that globalisation is a two-way street, and to ensure that all sides benefit in a reciprocal manner means the impacts have to be monitored globally, regionally, nationally and locally. By disseminating and emphasising these linguistic findings as part of the global cultural heritage, African language studies may offer urgently needed new perspectives towards a rapidly changing world. This poignant and brutally honest memoir is set against a backdrop of laugh-until-you-cry humour and of emotion which touches the very core. It is a real against all odds story of the underdog, seemingly down and out for the count, face in the mud, battling for breath. But then the devilish Celtic warrior spirit rizes from the ashes as you get to glimpse into the eye of a man who has a fury in his heart and a desire to succeed no matter what is thrown at him. You get to travel from the streets of Cardiff to the sunny suburbs of Johannesburg in an enthralling story. At times it makes you smile with familiarity, on other occasions you are holding your sides with laughter. The sadder parts of the story are not to be read in public unless you have waterproof mascara or a potential excuse for hayfever. The story of Liam OConner is as varied as it is sensitive but underneath it all is still the little red haired boy, full of mischief and ambition. So if

you're ready, get a cup of tea and a biscuit and go on a holiday of the mind. This is a must read. &>
