Introducing the first book in a powerful new series, The Tarcher Master Mind Editions: Essential Books of Inspiration, Instruction, and Motivation. What mind can conceive, man can achieve. Our decisions impact every area of our lives. Making better decisions means living a better life. But how can we develop the habit of making great decisions? Every noteworthy achievement the world has ever seen was born with a single thought; and every great man who ever lived has been a man of decision. Raymond Charles Barker's The Power of Decision reveals this principle of success and illustrates the process of choice that all of

us must take-and that all of us are capable, this very second, of taking-to change our lives and make our dreams come true. Indecisive people are failure prone, and Dr. Barker examines this basic truth while exploring the decision-making process in the individual, and the role of the subconscious mind in either abetting or thwarting each of our conscious decisions. He provides specific steps to shift the balance of decision-making power in your favor, and he brings to light the constant, ever-present power of will to change a situation- and yourself-for the better. Picking up *The Power of Decision* is the moment; and reading it is the decision that will change your life forever.

MULTIPLE CRITERIA DECISION ANALYSIS: State of the Art Surveys is the most comprehensive work available to survey the state of the art in MCDA to date. Its 25 chapters are organized in eight parts and are written by 52 international leading experts. Each of these parts covers one of the central streams of multiple criteria decision analysis literature. These literature streams are: MCDA today, Foundations of MCDA, Our Ranking Methods, Multiattribute Utility Theory, Non-Classical MCDA Approaches, Multiobjective Mathematical Programming, Applications, and MCDM Software. The handbook presents the most up-to-date discussions on well-established methodologies and theories in the field, while systematically surveying emerging fields in MCDA such as conjoint measurement, fuzzy preferences, fuzzy integrals, rough sets, etc.

MULTIPLE CRITERIA DECISION ANALYSIS: State of the Art Surveys is a valuable reference volume (more than 2000 references) for the field of decision analysis. It provides graduate students, researchers, and practitioners with a sweeping survey of MCDA theory, methodologies, and applications. It is a handbook that is particularly suitable for use in seminars in Decision Analysis, Decision Support, and Decision Theory. This is a frank, compassionate book written to those who contemplate suicide as a way out of their situations. The author issues an invitation to life, helping people accept the imperfections of their lives, and opening eyes to the possibilities of love. Become a confident leader and use data, experience, and intuition to drive your decisions. Agile decision making is imperative as you lead in a data-driven world. Amid streams of data and countless meetings, we make hasty decisions, slow decisions, and often no decisions. Uniquely bridging theory and practice, *Decisions Over Decimals* breaks this pattern by uniting data intelligence with human judgment to get to action — a sharp approach the authors refer to as Quantitative Intuition (QI). QI raises the power of thinking beyond big data without neglecting it and chasing the perfect decision while appreciating that such a thing can never really exist. Successful decision-makers are fierce interrogators. They square critical thinking with open-mindedness by blending information, intuition, and experience. Balancing these elements is at the heart of *Decisions Over Decimals*. This book is not only designed to be read - but frequently referenced - as you face innumerable decision moments. It is the hands-on manual for confident, accurate decision-making you've been looking

for; the rare resource that provides a set of pragmatic leadership tools to accelerate: Effectively framing the problem for stakeholders Synthesizing intelligence from incomplete information Delivering decisions that stick Strike the right balance between information and intuition and lead the smarter way with the real-world guidance found in Decisions Over Decimals. Parenting guide. The instant international bestseller 'This charming book will save you more time than it takes to read.' Adam Grant 'A must-read. This book will transform how you approach your workday.' Greg McKeown 'Read this book!' Jake Knapp High achievers most definitely approach their workday differently. This book gives access to the secrets and strategies they've found for making things work. From Wharton Professor Adam Grant's trick to get into flow when he starts work, Google's Executive Productivity Advisor, Laura Mae Martin, and her inbox shape-shifting, to Cal Newport's multiple kaban boards, this isn't your typical productivity book. You know the basics and have heard the swallow-the-frog platitudes. Time Wise goes deeper and unveils some of the more counterintuitive but effective methods that boost your productivity. Some of the high achievers featured, along with their personal strategies, include Adam Alter setting systems instead of goals, Rita McGrath who consults her own personal board of directors, Jake Knapp who focuses on the one important thing of the day and Oliver Burkeman's approach to beating the to-do list. This book will allow you to master the superpower of using your time wisely to achieve success in business, life and beyond. This book aims at gauging whether the nature of US foreign policy decision-making has changed after the Cold War as radically as a large body of literature seems to suggest, and develops a new framework to interpret presidential decision-making in foreign policy. It locates the study of risk in US foreign policy in a wider intellectual landscape that draws on contemporary debates in historiography, international relations and Presidential studies. Based on developments in the health and environment literature, the book identifies the President as the ultimate risk-manager, demonstrating how a President is called to perform a delicate balancing act between risks on the domestic/political side and risks on the strategic/international side. Every decision represents a 'risk vs. risk trade-off,' in which the management of one 'target risk' leads to the development 'countervailing risks.' The book applies this framework to the study three major crises in US foreign policy: the Cuban Missile Crisis, the seizure of the US Embassy in Tehran in 1979, and the massacre at Srebrenica in 1995. Each case-study results from substantial archival research and over twenty interviews with policymakers and academics, including former President Jimmy Carter and former Senator Bob Dole. This book is ideal for postgraduate researchers and academics in US foreign policy, foreign policy decision-making and the US Presidency as well as Departments and Institutes dealing with the study of risk in the social sciences. The case studies will also be of great use to undergraduate students. March, September, and December issues include index

digests, and June issue includes cumulative tables and index digest. Winner of the 2014 Christianity Today Book of the Year First Place Winner of the Religion Newswriters Association's Non-fiction Religion Book of the Year

The Jesus People movement was a unique combination of the hippie counterculture and evangelical Christianity. It first appeared in the famed "Summer of Love" of 1967, in San Francisco's Haight-Ashbury district, and spread like wildfire in Southern California and beyond, to cities like Seattle, Atlanta, and Milwaukee. In 1971 the growing movement found its way into the national media spotlight and gained momentum, attracting a huge new following among evangelical church youth, who enthusiastically adopted the Jesus People persona as their own. Within a few years, however, the movement disappeared and was largely forgotten by everyone but those who had filled its ranks. God's Forever Family argues that the Jesus People movement was one of the most important American religious movements of the second half of the 20th-century. Not only do such new and burgeoning evangelical groups as Calvary Chapel and the Vineyard trace back to the Jesus People, but the movement paved the way for the huge Contemporary Christian Music industry and the rise of "Praise Music" in the nation's churches. More significantly, it revolutionized evangelicals' relationship with youth and popular culture. Larry Eskridge makes the case that the Jesus People movement not only helped create a resurgent evangelicalism but must be considered one of the formative powers that shaped American youth in the late 1960s and 1970s. We all face death, but how many of us are actually ready for it? Whether our own death or that of a loved one comes first, how prepared are we, spiritually or practically? In *Preparing to Die*, Andrew Holecek presents a wide array of resources to help the reader address this unfinished business. Part One shows how to prepare one's mind and how to help others, before, during, and after death. The author explains how spiritual preparation for death can completely transform our relationship to the end of life, dissolving our fear and helping us to feel open and receptive to letting go in the dying process. Daily meditation practices, the stages of dying and how to work with them, and after-death experiences are all detailed in ways that will be particularly helpful for those with an interest in Tibetan Buddhism and in Tibetan approaches to conscious dying. Part Two addresses the practical issues that surround death. Experts in grief, hospice, the funeral business, and the medical and legal issues of death contribute chapters to prepare the reader for every practical concern, including advance directives, green funerals, the signs of death, warnings about the funeral industry, the stages of grief, and practical care for the dying. Part Three contains heart-advice from twenty of the best-known Tibetan Buddhist masters now teaching in the West. These brief interviews provide words of solace and wisdom to guide the dying and their caregivers during this challenging time. *Preparing to Die* is for anyone interested in learning how to prepare for death from a Buddhist perspective, both spiritually and practically. It is also for those

who want to learn how to help someone else who is dying, both during the time of illness and death as well as after death. She was supposed to match him with someone else... Elise Arundel won't let anyone compromise her high-profile matchmaking business—certainly not Dax Wakefield, the doubting tycoon determined to prove she's a sham. She'll find the sexy bachelor a perfect mate. But when her foolproof program matches him with her, what's a woman to do but give in to unbridled passion? Dax can't believe how the former-duckling-turned-swan is making him question his playboy status...and his vow to bring down her company. Could sultry Elise—his enemy!—be the one to change his life from one night only to happily ever after?

"Alzheimer's leaps off the neatly painted sign, as if in neon, beckoning the driver to come on it." Lugging eighty two years of baggage, Martha begins an unforgettable two-year journey weaving in and out of her forgotten memories. Based on a true story, this emotionally charged account is told in snippets of anecdotes from Martha's perception as well as the real life experiences of her daughters. Set against the backdrop of Alzheimer's disease, this riveting narrative weaves a beautiful tapestry of compassion, inspiration and redemption. Unclaimed Baggage is a beacon of hope culminating in an unexpected miracle that could only be achieved through the God-given vessel named Alzheimer's. "In that moment, God's spirit filled the daughters and brought His gift of love to them. They were allowed a rare glimpse inside God's "why" world, the secret world of why things happen." In the end, God was there with them. He had been there all the time. Attain Walsh knew something was odd at Nicholas Lindson's ranch. Ever since his best friend married Sandra, things have turned...strange. Wanting to get to the bottom of things, Attain begins to show up unexpectedly. He's shocked to stumble across Nicholas making out with someone other than his wife. The idea that his buddy was a cheat had never crossed his mind. Unable to help himself, Attain confronts Nicholas...and learns that the marriage is a sham. Both Nicholas and Sandra have separate partners. Not only that, but his friend's partner—Bod— isn't human. He's a gargoyle. When Attain meets more of them, he's shocked to find himself attracted to one of the huge beasts—a dark-blue gargoyle named Ssimeas. Then he learns about mates—someone the gargoyle considers the other half of their soul—and Ssimeas claims that Attain is his. But Attain is a confirmed bachelor. He has no desire to be anyone's soul mate. Can Attain convince the gargoyle to leave him alone? Or will the male's flattering pursuit sway him into turning his life upside down? We make decisions, and these decisions make us and our organisations. And in theory, decision-making should be easy: a problem is identified, the decision-makers generate solutions, and choose the optimal one - and powerful mathematical tools are available to facilitate the task. Yet if it is all so simple why do organisations, both private and public sector, keep making mistakes - the results of which are borne by shareholders, employees, taxpayers and ultimately society at large? This guide to decision making. by leading decision science academic Helga Drummond, aims to improve decision-making in organisations. It explores how and why decisions go awry in the first place - and offers practical advice on what decision-makers can do to counter the psychological, social and other forces that can undermine individual judgment and pull organisations off course. Full of examples of good and bad decision-making from around the world, it will make readers think more clearly about decisions big and small. This book illustrates the benefits to be gained from digitally networked communication for health, education and transitioning

economies in developing nations (Sierra Leone and Papua New Guinea) and developed nations. Growing powers of e-citizenship can help build sustainable futures. This small volume provides a collection of examples and ideas from which the authors hope will help build a wider resource. Understanding how to link everyday lives with global networks in the digital world in ways that add benefit for the world's people, and the health of the planet, is an ongoing project. IYGU recognises the integral roles of networking and communication systems, as well as interactions between people, near and far, as fundamental for building better futures. The global penetration of digital devices means everyday life, present and future, is inextricably linked with information technologies. It ain't easy being saved, sanctified, and single. Try being a once divorced, now widowed single mother of two on top of that. Thank God the Lord built Paige Vanderdale to be able to bear all of those titles without becoming weary to the point of giving up. From the outside looking in, that life looks good on her. On the inside, though, Paige is coveting what so many others around her seem to have, which is true love. In the past, everything that she thought was love was either something far from it, or was taken away from her. Now Paige is afraid to let her hair down and open herself up to love again. Paige struggles with the decision to reach out to an old flame to rekindle their spark. When the blaze gets too high, will Paige do what she always does, which is grab the nearest fire extinguisher and try to put it out? Or will she utilize her backup plan and run? The decision is abruptly removed from Paige's hands when something else begins to pull her away--something that just might be the thing that finally breaks her.
