Gerhard Richter Feb 08 2022 An encounter with Gerhard Richter, the German artist who widened horizons in the relationship between painting and reality. From early photographic paintings, along with his famous RAF cycle, to late abstract paintings, experiencing Richter's work always offers us the unexpected and unseen. Where he once set out to liberate the medium from ideological ballast, today, faced with the overwhelming presence of digital images, he shows us the unsurpassed impact and intensity of painting. A definitive introduction to one of the greatest artists of our time spanning not only his entire career, but also 50 years of cultural, economic, and political events.

*Hokusai* Apr 29 2021 Katsushika Hokusai ist ohne Zweifel der seit der Mitte des 19. Jahrhunderts im Westen berühmteste Künstler Japans. Die Werke Hokusais spiegeln die künstlerischen Ausdrucksformen einer isolierten Kultur wider. Gleichzeitig war er einer der ersten japanischen Künstler, der in Europa Bekanntheit erlangte und großen Einfluss auf impressionistische und postimpressionistische Maler wie etwa Vincent van Gogh ausübte. Hokusai galt schon zu seinen Lebzeiten als ein Meister der Kunst des Ukiyo-e. Er fasziniert uns noch heute mit der Vielfalt und Bedeutung seines in diesem Buch in seiner gesamten abwechslungsreichen Breite präsentierten, fast neunzig Jahre umfassenden Werkes.

**Elmgreen & Dragset** Jan 15 2020 Elmgreen & Dragset's constructed environments have been celebrated all over the world for their mischievous, cerebral, and accessible nature. This is the first comprehensive presentation of the duo's work, from their early performative pieces in the late 1990s to their most recent public projects Drawing from disciplines as divergent as institutional critique, social politics, performance, design, and architecture, Elmgreen & Dragset's work reconfigure the familiar with characteristic and subversive wit. Their sculptures and installations, also known as 'Powerless Structures', have redefined what it means to experience art - the cover features their work Van Gogh's Ear, a sculpture in the form of a swimming pool, which is located on Fifth Avenue in New York at the entrance to the Rockefeller Center. This book includes all of their most significant projects, from the transformation of New York's Bohemian Foundation into a subway station in 2004, to the siting of a fake Prada boutique in the Texan desert in 2005, and the installation of the statue of a child on a rocking horse on the fourth plinth in Trafalgar Square in 2012. Elmgreen & Dragset is the latest addition to the acclaimed Phaidon Contemporary Artists Series.
