Interest in military justice remains surprisingly intense as a result of sustained legislative and media attention to military sexual assault issues, high-profile courts-martial, and the troubling revival of military commissions following the 9/11 attacks. While the spotlight understandably focuses initially on the trial courts, attention shifts to the appellate courts established under the Uniform Code of Military Justice (“UCMJ”) and the Supreme Court of the United States as significant cases work their way through the system. Given the enhanced interest in the military justice system, it is as critical as ever that the public, the bar, and Congress (which enacted significant military law reforms in 2013 and 2016) have available reliable information about the functioning of the military appellate judicial process. The pinnacle of that process, short of the Supreme Court, is the Court of Appeals for the Armed Forces. Such are the goals of this GUIDE. Periodic revisions are contemplated in order to maintain its usefulness. Very little has been retained intact from the first edition and the 1980 Supplement. The effort throughout is to strike a balance between the practical needs of counsel and others who work with the rules, on the one hand, and, on the other, remaining alert to major themes and areas of potential improvement. This edition reflects cases decided on full opinion, statutory revisions, executive orders, regulations, rule changes, and Daily Journal entries through January 25, 2021. This book contains three major parts: The Bluepages, new to the eighteenth edition, is a how-to guide for basic legal citation. Unlike the remainder of book, which is designed in a style and at a level of complexity commensurate with the needs of the law journal publication process, the Bluepages provides easy-to-comprehend guidance for the everyday citation needs of first-year law students, summer associates, law clerks, practicing lawyers, and other legal professionals. The examples used throughout the Bluepages are printed using simple typeface conventions common in the legal profession. The second part, printed on white paper, is the heart of the Bluebook system of citation: the rules of citation and style. This part is subdivided into two main sections. The first section, consisting of rules 1 through 9, establishes general standards of citation and style for use in all forms of legal writing. The second section, consisting of rules 10 through 21, presents rules for citation of specific kinds of authority such as cases, statutes, books, periodicals, and foreign and international materials. The examples used throughout this part are printed using typeface conventions standard in law journal footnotes. The third part, printed on white paper with a blue border at the end of the book, consists of a series of tables to be used in conjunction with the rules. The tables show, among other things, which authority to cite and how to abbreviate properly. Individual tables are referenced throughout the book. While the digital revolution has touched every aspect of law librarianship, perhaps nowhere has the effect been more profound than in the area of collection development. Many of the materials law libraries traditionally collected in print form are now available in electronic format. Digital technology has affected the way we select, order, and process legal materials. The World Wide Web has created an explosion of both commercial and private online publishing. The cost of electronic publishing has caused many traditional law book publishers to sell their companies rather than invest in the needed technologies to compete in the 21st century. Small publishers and book jobbers have been forced to reinvent themselves. The amount of legal information available and its costs continue to soar. Law Library Collection Development in the Digital Age deals with these and other issues related to law library collection development. Chapters range from the theoretical to the practical. Inspired by Penny Hazleton’s seminal paper “How Much of Your Print Collection is Really on Lexis or Westlaw?” the editors and chapter authors of Law Library Collection Development in the Digital Age endeavor to expand on professor Hazleton’s work, with examinations of: the role of law libraries in strategic planning for distance learning Web mirror sites trust vs. antitrust issues access vs. ownership issues how law libraries deal with electronic court records, dockets, and filings the growth of e-journals as they relate to legal publishing how the Hein Greenslips and Blackwell North America’s Bookservice cover legal materials past, present, and future roles of specialized book jobbers and more! Anyone interested in law librarianship or the information industry will find this book informative and useful. Make it a part of your professional collection today.
