Widely recognized as a leading text in its field, this popular guide explores literacy development beginning in infancy and through fourth grade. The latest edition continues to prepare teachers to create and implement literacy-rich curricula in early childhood classrooms, while providing updates to federal legislation and highlighting the impact of state standards on educational settings. Recent technology is integrated into activities used to enhance literacy competencies. Throughout the book, the author's approach to reflective teaching empowers teachers to become effective decision makers and thoughtful mediators in children's transactions with literacy. A conceptual and theoretical foundation for describing reading and writing processes is followed by research-based descriptions of the signs of emergent literacy and developmentally appropriate instructional strategies. The emphasis on linguistic and cultural diversity includes an array of approaches for supporting English language learners. Chapter extension activities challenge readers to apply concepts through observation, research, curriculum development, and discussion. Sample observation and assessment forms assist in determining children's progress in developing literacy. This volume, through a detailed treatment of the cognitive processes that support reading, explains how reading really works. It offers a thorough overview of important and current research, including first language research, which is not often found in second language acquisition (SLA) publications. This book is a true example of applied linguistics; it makes well-defined linkages between theory and practice, discussing the implications and applications of second language reading theories on instructional practices. It is a valuable resource and reference for action researchers, curriculum designers, teachers, administrators, and those interested in exploring theoretical issues grounded in instructional contexts. When you and your colleagues want to explore more ways to help students understand what they read, make inferences, and support their thinking with evidence, this book is your ideal tool. Well known for its detailed and practical explanations of reading, writing, and study strategies, SECONDARY SCHOOL LITERACY INSTRUCTION is required reading for all non-literacy teaching majors. Its motivational pedagogy especially appeals to pre-service teachers, who quickly realize that the text will help them improve their students' progress. Two hallmark chapters on content area teaching have brought this text wide acclaim for its unique application of literacy and study skills in all secondary subject areas. The text also is recognized for its proven pedagogy, including Meeting the Challenge, which puts ideas into classroom practice, and Focus on English Language Learners and Focus on Struggling Readers, which highlight important applications for these special needs learners in easy-to-locate sections in each chapter.
