Living Spiritual Praxis Feb 08 2022 "Christian ministers working in congregations and with nonprofits seek to discern what it is that God has been doing and where it is that the ""Spirit"" might be leading them. In Living Spiritual Praxis Eric Kyle looks to address the lack of resources on the work and dynamics of Christian spiritual formation that actually develop a specific process for spiritual formation programs. Kyle strives to provide a guide for spiritual formation by using the ""praxis-oriented"" fields of action research and practical theology. He explores a process for understanding the nature and dynamics of a situation, discerning specific formative interventions, assessing various approaches, and continually assessing and modifying these understandings and approaches. Living Spiritual Praxis will be an invaluable resource for all Christians, leaders and laity alike, who are challenged by the spiritual formation of church members, communities, groups, and individuals."

A Journal of Personal Exploration, Reflection and Discovery Jun 19 2020 As high tech as the world of personal communication is, it still relies on the written word to transfer thoughts and ideas. Writing a sentence solidifies a thought as well as records it so to be available for review in the future. Significant Sentences provides exercises facilitating the combination of your personal spirit, quiet reflection and your past experiences to come together and produce sentence that is recorded or 'saved'. Using paper and pencil, keystroke and screen or even your smart phone, use Significant Sentences as a personal journal or a way to reach out using social media tools like Facebook. Blog or tweet your moments of discovery. How we write and transmit ideas is vastly changing but it still comes down to words conveying thoughts and emotions. These exercises can serve as a connection between teacher and student, speaker and audience, cyber audience or soul to soul. By sharing stories and ideas about your interpersonal life electronically or on paper, the individual may discover hidden writing talents, a gift for poetry, blogging or tweeting. Your reflections may become a poem, song or school essay. The variety and quantity of questions in each exercise are designed to spur the writer on by providing some starting point and giving some direction. Significant Sentences can be the catalyst for internal retrospection. Writing can reveal the negative as well as the positive. That is the cathartic joy and challenge. Facing those negatives or

seeing them more clearly can be exactly what you need to conquer them. Trust yourself that good can be derived from recording your thoughts and reflections, and the connection with the self is the key to personal enlightenment. May you find hidden treasures and truth within?

Gower Handbook of Leadership and Management Development Nov 24 2020 The fifth edition of the Handbook explores the role and value of leadership and management development and provides tools, techniques and authoritative guidance on how to deliver it effectively. The contributors, both academics and professionals, many of whom are highly-regarded in their field, work with existing as well as new ideas; incorporating the needs of contemporary society with a commitment to show how their ideas are relevant in practice and how they may be implemented. The book draws on case studies and contributions from North America, Australasia and Europe.

Practical Theology May 19 2020 Every church congregation encounters challenging situations, some the same the world over, and others specific to each church. Richard Osmer here seeks to teach congregational leaders -- including, but not limited to, clergy -- the requisite knowledge and skills to meet such situations with sensitivity and creativity. Osmer develops a framework for practical theological interpretation in congregations by focusing on four key questions: What is going on in a given context? Why is this going on? What ought to be going on? and How might the leader shape the context to better embody Christian witness and mission? The book is unique in its attention to interdisciplinary issues and the ways that theological reflection is grounded in the spirituality of leaders. Useful, accessible, and lively -- with lots of specific examples and case studies -- Osmer's Practical Theology effectively equips congregational leaders to guide their communities with theological integrity.

Handbook of Classroom Management Jul 21 2020 Classroom management is a topic of enduring concern for teachers, administrators, and the public. It consistently ranks as the first or second most serious educational problem in the eyes of the general public, and beginning teachers consistently rank it as their most pressing concern during their early teaching years. Management problems continue to be a major cause of teacher burnout and job dissatisfaction. Strangely, despite this enduring concern on the part of educators and the public, few researchers have chosen to focus on classroom management or to identify themselves with this critical field. The Handbook of Classroom Management has four primary goals: 1) to clarify the term classroom management; 2) to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers' managerial tasks; 3) to bring together disparate lines of research and encourage conversations across different areas of inquiry; and 4) to promote a vigorous agenda for future research in this area. To this end, 47 chapters have been organized into 10 sections, each chapter written by a recognized expert in that area. Cutting across the sections and chapters are the following themes: *First, positive teacher-student relationships are seen as the very core of effective classroom management. *Second, classroom management is viewed as a social and moral curriculum. *Third, external reward and punishment strategies are not seen as optimal for promoting academic and social-emotional growth and self-regulated behavior. *Fourth, to create orderly, productive environments teachers must take into account student characteristics such as age, developmental level, race, ethnicity, cultural background, socioeconomic status, and ableness. Like other research handbooks, the Handbook of Classroom Management provides an indispensable reference volume for scholars, teacher educators, in-service practitioners, and the academic libraries serving these audiences. It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management.

Jsl Vol 12-N3 Oct 16 2022 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a wide variety of theoretical perspectives and methodological orientations. The editorial team is particularly interested in working with international authors, authors from traditionally marginalized populations, and in work that is relevant to practitioners around the world. Growing numbers of educators and professors look to the six bimonthly issues to: deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement.

Twenty-One Genres and How to Write Them Oct 12 2019 In this classroom-tested approach to writing, Brock Dethier teaches readers how to analyze and write twenty-one genres that students are likely to encounter in college and beyond. This practical, student-friendly, task-oriented text confidently guides writers through step-by-step processes, reducing the anxiety commonly associated with writing tasks. In the first section, Dethier efficiently presents each genre, providing models, a description of the genres' purpose, context, and discourse; and suggestions for writing activities or "moves" that writers can use to get words on the page and accomplish their writing tasks. The second section explains these moves, over two hundred of them, in chapters ranging from "Solve Your Process Problems" and "Discover" to "Revise" and "Present." Applicable to any writing task or genre, these moves help students overcome writing blocks and develop a piece of writing from the first glimmers of an idea to its presentation. This approach to managing the complexity and challenge of writing in college strives to be useful, flexible, eclectic, and brief—a valuable resource for students learning to

negotiate unfamiliar writing situations.

They Aren't Just Students Nov 12 2019 This book is geared towards the academic as well as the trade audience. There are very few books for college teachers that encourage them with specific ways to become better teachers. As such, this book is very unusual in its information and purpose, making it a very valuable tool for anyone who wants to teach. This book stands well on its own but would also make a great supplement for any college text book. For a trade audience this book has applications to high school and elementary school teachers who can easily make the leap between teaching college and their current level students. It will also be of interest to parents as they evaluate the quality of those who teach their children. Written in the style of Irvin. D. Yalom and his book *The Gift of Therapy*, this work is based on general research themes and experience rather than specific studies. It is written in a direct and personal style to the reader with many examples from the twenty-one years of teaching experience by the author.

Pastor Jack Oct 24 2020 Jack Hayford is rightly known as a "pastor of pastors." The facts bear this out: he is the author of over 50 books, the writer of 600 hymns and choruses (including the internationally popular "Majesty"), and a pentecostal leader committed to building bridges while maintaining the integrity of the gospel. For Pastor Jack, David Moore was granted unrestricted access to Hayford's journals and personal correspondence and completed over 60 hours of personal interviews to offer the first authorized biography of this extraordinary man. From the miraculous healings he experienced as a child to the moment he sensed God calling him to the pastorate for more than 60 years of fruitful ministry, Hayford has witnessed and proclaimed God's mighty works with boldness and grace. This exploration of his life and legacy will inspire Hayford's lifelong followers as well as those new to his words and faith.

Writing Theology Well Feb 20 2023 In its creative integration of the disciplines of writing, rhetoric, and theology, *Writing Theology Well* provides a standard text for theological educators engaged in the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it will also encourage excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts.

Integrating Service-Learning and Consulting in Distance Education Apr 17 2020 As distance learning continues to grow, universities are seeking ways to integrate traditional student community service into online courses. Supported by seven years of successful implementation, this book presents an award-winning service-learning model through which online students serve as consultants to organizations nationwide.

Writing Theology Well 2nd Edition Dec 18 2022 A working guide for students conducting theological writing and research on theology and biblical studies courses, this book integrates the disciplines of writing, rhetoric, and theology, to provide a standard text for the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it also encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

Research Methods in Sports Coaching Dec 14 2019 *Research Methods in Sports Coaching* is a key resource for any student, researcher or practitioner wishing to undertake research into sports coaching. It takes the reader through each phase of the research process, from identifying valuable research questions, to data collection and analyses, to the presentation and dissemination of research findings. It is the only book to focus on the particular challenges and techniques of sports coaching research, with each chapter including examples, cases and scenarios from the real world of sports coaching. The book introduces and explores important philosophical, theoretical and practical considerations in conducting coaching research, including contextual discussions about why it's important to do sports coaching research, how to judge the quality of coaching research, and how sports coaching research might meet the needs of coaching practitioners. Written by a team of leading international scholars and researchers from the UK, US, Canada and Australia, and bridging the gap between theory and practice, this book is an essential course text for any research methods course taken as part of a degree programme in sports coaching or coach education.

Creating Contexts for Learning and Self-authorship Apr 10 2022 This book is intended to help college faculty create conditions in which students learn to construct knowledge in their disciplines and achieve self-authorship. A significant and often overlooked dimension mediating learning and self-authorship centers on learners' ways of knowing, or their assumptions about the nature, limits, and certainty of knowledge. A learner who assumes that all knowledge is certain expects to hear answers from an

authority figure; in contrast, a learner who views knowledge as relative expects to explore multiple viewpoints. By taking a constructive-developmental approach, the author demonstrates how students' ability to construct knowledge is intertwined with the development of their assumptions about knowledge itself and their role in creating it. She shows how the structure of constructive-developmental teaching hinges on three principles: validating students' ability to know, situating learning in students' experience, and defining learning as teachers and students mutually constructing meaning. The book also takes abstract pedagogical principles and translates them into practical approaches.--

Preparing Teachers for a Changing World Jan 15 2020 Based on rapid advances in what is known about how people learn and how to teach effectively, this important book examines the core concepts and central pedagogies that should be at the heart of any teacher education program. Stemming from the results of a commission sponsored by the National Academy of Education, Preparing Teachers for a Changing World recommends the creation of an informed teacher education curriculum with the common elements that represent state-of-the-art standards for the profession. Written for teacher educators in both traditional and alternative programs, university and school system leaders, teachers, staff development professionals, researchers, and educational policymakers, the book addresses the key foundational knowledge for teaching and discusses how to implement that knowledge within the classroom. Preparing Teachers for a Changing World recommends that, in addition to strong subject matter knowledge, all new teachers have a basic understanding of how people learn and develop, as well as how children acquire and use language, which is the currency of education. In addition, the book suggests that teaching professionals must be able to apply that knowledge in developing curriculum that attends to students' needs, the demands of the content, and the social purposes of education: in teaching specific subject matter to diverse students, in managing the classroom, assessing student performance, and using technology in the classroom.

Promoting Social Justice through the Scholarship of Teaching and Learning Sep 15 2022 How can education become a transformative experience for all learners and teachers? The contributors to this volume contend that the Scholarship of Teaching and Learning (SoTL) can provide a strong foundation for the role of education in promoting social justice. The collection features contributions by an array of educators and scholars, highlighting the various ways that learners and teachers can prepare for and engage with

social justice concerns. The essays offer reflections on the value of SoTL in relation to educational ethics, marginalized groups, community service and activism, counter narratives, and a range of classroom practices. Although the contributors work in a variety of disciplines and employ different theoretical frameworks, they are united by the conviction that education should improve our lives by promoting equity and social justice.

Business Schools, Leadership and Sustainable Development Goals Nov 05 2021 Business Schools, Leadership and Sustainable Development Goals: The Future of Responsible Management Education is the second book in the series Citizenship and Sustainability in Organizations: Exploring and Spanning the Boundaries. It contains chapters from various scholars and practitioners in the field of responsible management education (RME). Through introspection, through celebrating successes and learning from failures (retrospection) and through looking forward (prospection), it aims to inspire a future of management education and leadership development that demonstrates its relevance to sustainable development. In doing so, it touches upon the grand societal challenges of our time, as illustrated by the United Nations Sustainable Development Goals, and discusses how business schools, and other providers of management education, could and should contribute to overcoming these challenges. It argues that management education needs to educate future leaders in a way that no longer hampers but truly accelerates the process of sustainable development. This book offers a collection of thought-provoking ideas, vivid stories (including personal accounts and experiences), and appealing and engaged forecasts, visions and ideas about management education and leadership development for sustainability. Hence, it is a must-read for anyone interested in or involved in RME.

Handbook of Reflection and Reflective Inquiry Dec 06 2021 Philosophers have warned of the perils of a life spent without reflection, but what constitutes reflective inquiry - and why it's necessary in our lives - can be an elusive concept. Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire, the Handbook of Reflection and Reflective Inquiry presents reflective thought in its most vital aspects, not as a fanciful or nostalgic exercise, but as a powerful means of seeing familiar events anew, encouraging critical thinking and crucial insight, teaching and learning. In its opening pages, two seasoned educators, Maxine Greene and Lee Shulman, discuss reflective inquiry as a form of active attention (Thoreau's "wide-awakeness"), an act of consciousness, and a process by which people can understand themselves, their work (particularly in the form of life projects), and others. Building on this foundation, the Handbook analyzes through the work of 40 internationally oriented authors: - Definitional issues concerning reflection, what it is and is not; - Worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education; - Reflection as promoted across professional educational domains, including K-12 education, teacher education, occupational therapy, and the law; - Methods of facilitating and scaffolding reflective engagement; - Current pedagogical and research practices in reflection; - Approaches to assessing reflective inquiry. Educators across the professions as well as adult educators, counselors and psychologists, and curriculum developers concerned with adult learning will find the Handbook of Reflection and Reflective Inquiry an invaluable teaching tool for challenging times.

Cultural Awareness and Competency Development in Higher Education Nov 17 2022 As the world becomes more globalized, student populations in university settings will continue to grow in diversity. To ensure students develop the cultural competence to adapt to new environments, universities and colleges must develop policies and programs

to aid in the progression of cultural acceptance and understanding. **Cultural Awareness and Competency Development in Higher Education** is an essential reference book on the latest literature regarding multiculturalism in colleges and universities, focusing on administration and faculty implementation of culturally-aware curriculum to support the development of students' global competence. Featuring extensive coverage on a range of topics including social constructivism, co-curricular learning, and inclusive pedagogy, this publication is ideally designed for academicians, researchers, and students seeking current research on the inclusion of culturally diverse curriculums in higher education.

Clinical Supervision Activities for Increasing Competence and Self-Awareness Jan 19 2023 Cultivate self-awareness, empathy, and clinical competence in the mental health professionals you supervise Providing tested guidance for clinical supervisors of mental health professionals, editors Roy A. Bean, Sean D. Davis, and Maureen P. Davey draw from their own backgrounds in training, private practice, and academe, as well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues. While clinical skills are easily observed, the more subtle areas of self-awareness, or exploring unexamined judgments are more difficult to spot and to provide supervision and guidance for. The numerous experiential activities included will help supervisors and the mental health professional they supervise develop their skills and techniques around: Intuition Empathy Self-awareness Mindfulness Multicultural awareness Perspective taking The book covers both clinical as well as diversity-focused competence and awareness, and suggests various forms of activities, including research exercises, reflection, journaling, and more. Each activity includes measurement metrics as well as additional resources that help clinicians identify the best activity for a given situation. Appropriate for clinicians at every level and from a multitude of backgrounds, these tried and tested best practices can be used in clinical supervision, as a class assignment, or to facilitate professional growth.

Higher Education Accessibility Behind and Beyond Prison Walls Dec 26 2020 Numerous studies indicate that completing a college degree reduces an individual's likelihood of recidivating. However, there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree. **Higher Education Accessibility Behind and Beyond Prison Walls** examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post-incarceration. Drawing on the experiences of program administrators and professors from across the country, it offers best practices for (1) developing, running, and teaching in college programs offered inside jails and prisons and (2) providing adequate support to returning citizens who wish to complete a college degree. This book is intended to be a resource for college administrators, staff, and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses.

Reflective Organizations: On the Front Lines of QSEN & Reflective Practice Implementation, 2015 AJN Award Recipient May 11 2022 Today's healthcare environment is ever-evolving. This constant progression requires educators and practitioners to be nimble, flexible, and responsive to change. While individuals can be nimble and flexible, organizational culture is often stubbornly resistant. Changing the culture requires more than introducing new activities or tasks. In this follow-up to their highly regarded book—**Reflective Practice: Transforming Education and Improving Outcomes**—Gwen Sherwood and Sara Horton-Deutsch focus on reflective learning as a catalyst for transforming traditional organizations and environments. The authors make a strong case that the way organizations incorporate change into their culture or processes ultimately affects sustainability. **Reflective Organizations: On the Front Lines of QSEN & Reflective Practice Implementation** promotes a systematic change that supports nurses and educators in learning from experiences in order to craft future change. If you want to know how to begin, what to expect, and how others have addressed the familiar challenges of the change process, this book will serve as your guide.

Facilitating with Stories Mar 29 2021 This book provides a rich connection between theory and practice for those seeking to work with stories in organisational, community, educative or coaching settings. With an international cast of contributors, it charts a unique inquiry into both ethics and the facilitation philosophies for working with stories supporting educators, facilitators, trainers and consultants towards more effective and considered practice. This book will be a valuable resource for professionals and reflective practitioners seeking to explore: What informs an ethics of facilitating with stories? How can we create safe spaces for story work? In what ways do we need to be attuned to power when working with stories in organisations and corporations? What are the unintended and ethical consequences of facilitating with stories?

The Person of the Therapist Training Model Sep 03 2021 **The Person of the Therapist Training Model** presents a model that prepares therapists to make active and

purposeful use of who they are, personally and professionally, in all aspects of the therapeutic process—relationship, assessment and intervention. The authors take a process that seems vague and elusive, the self-of-the-therapist work, and provide a step-by-step description of how to conceptualize, structure, and implement a training program designed to facilitate the creation of effective therapists, who are skilled at using their whole selves in their encounters with clients. This book looks to make conscious and planned use of a therapist's race, gender, culture, values, life experience, and in particular, personal vulnerabilities and struggles in how he or she relates and works with clients. This evidence-supported resource is ideal for clinicians, supervisors, and training programs.
