The Celtic Languages Oct 16 2019 The Celtic Languages describes in depth all the Celtic languages from historical, structural and sociolinguistic perspectives with individual chapters on Irish, Scottish Gaelic, Manx, Welsh, Breton and Cornish. This second edition has been thoroughly revised to provide a comprehensive and up-to-date account of the modern Celtic languages and their current sociolinguistic status along with complete descriptions of the historical languages. This comprehensive volume is arranged in four parts. The first part offers a description of the typological

aspects of the Celtic languages followed by a scene setting historical account of the emergence of these languages. Chapters devoted to Continental Celtic, Old and Middle Irish, and Old and Middle Welsh follow. Parts two and three are devoted to linguistic descriptions of the contemporary languages. Part two has chapters on Irish, Scots Gaelic and Manx, while Part three covers Welsh, Breton and Cornish. Part four is devoted to the sociolinguistic situation of the four contemporary Celtic languages and a final chapter describes the status of the two revived languages Cornish and Manx. With contributions from a variety of scholars of the highest reputation, *The Celtic Languages* continues to be an invaluable tool for both students and teachers of linguistics, especially those with an interest in typology, language universals and the unique sociolinguistic position which the Celtic languages occupy.
