Hisba, Arts and Craft in Islam Jan 19 2023 This book focusses on a historical and cultural aspect of medieval Islam: the market inspection (hisba) in the Muslim state and its impact on the development of arts and crafts. It is a pioneer work in Islamic studies in which this aspect is being studied from over-all historical and cultural points of view. The study deals with two main issues: the history of market inspection in medieval Islam where it tries to highlight some additional notes concerning the origin of the institution of market inspection in Islam and also emphasizes its cultural role in the Muslim society. The second issue focuses on the impact of the institution of market inspection on the development of the visual arts and crafts in medieval Islam. Methodologically, the study surveys the references to the crafts in the manuals of hisba and compares them with the information about these crafts as they run in reality.

Let There Be Light Mar 17 2020 Let There Be Light accompanies Bill Abrams on a time-traveling journey through history. Harnessing the energy of the sun's ultraviolet light, his Light Assimilator enables him to travel on a voyage to discover the truth. His adventure takes him to the moments in time in which he discovers how the Ice Age fits into the Bible, the fate of the dinosaurs, the reasons why people lived to be hundreds of years old prior to the flood, and how, in fact, the flood itself could cover the whole earth. Mark Leonard, a veteran presenter at numerous youth conferences and church camps, weaves together the Bible's truth with this tale of a time-traveling explorer. He tells how, after several test runs, Bill decides to make a journey back to first-century Palestine to see the temple in Jerusalem. Taking off, Bill made three loops around the area and with the ship angled in a southerly direction towards the equator; the landing gear and the wings began retracting. In the blink of an eye, the craft disappeared into nothingness. And so his adventures begin. Written for young adults, Let There Be Light will appeal to adult readers as well. If you enjoy stories that mix together adventure, engaging characters, and the discovery of deep scientific truths, then Let There Be Light will offer you a chance to go on an adventure that will change your view of the world and its history.

Israeli Statecraft May 11 2022 This book offers a systematic examination, analysis and evaluation of Israeli national security statecraft in terms of challenges and responses. Providing an in-depth analysis of Israeli statecraft challenges and responses, this interdisciplinary book integrates social science and security studies with public policy approaches within a long-term historical perspective on the Arab-Israeli conflict. These scholarly

approaches are synthesized with extensive personal knowledge of the author based on involvement in Israeli political-security policy making. This book makes use of conceptualizations of statecraft such as 'fuzzy gambling' and interventions with critical mass in ultra-dynamic historical processes to help clarify Israel's main statecraft successes and failures, alongside the wider theoretical apparatuses these concepts represent. While focused on Israel, these theoretical frameworks have important implications for the academic study of statecraft and statecraft praxis worldwide. This book will be of much interest to both statecraft practitioners and to students of Israeli politics and security, the Middle Eastern conflict, strategic studies and IR/security studies in general.

Encyclopedia Of Freemasonry And Its Kindred Sciences, Volume 2: D-L Jan 27 2021 Dr. Albert G. Mackey appears as author of this "Encyclopedia of Freemasonry and its Kindred Sciences," which, being a library in itself, superseded most of the Masonic works which have been tolerated by the craft — chiefly because none better could be obtained. Here is a work which fulfils the hope which sustained the author through ten years' literary labor, that, under one cover he "would furnish every Mason who might consult its pages the means of acquiring a knowledge of all matters connected with the science, the philosophy, and the history of his order." Up to the present time the modern literature of Freemasonry has been diffuse, lumbering, unreliable, and, out of all reasonable proportions. There is, in Mackey's "Encyclopaedia of Masonry," well digested, well arranged, and confined within reasonable limits, all that a Mason can desire to find in a book exclusively devoted to the history, the arts, science, and literature of Masonry. This is volume two out of four and covering the letters D to L.

Artisans of Empire Dec 18 2022 The manufacture and trade in crafted goods and the men and women who were involved in this industry - including metalworkers, ceramicists, silk weavers, fez-makers, blacksmiths and even barbers - lay at the social as well as the economic heart of the Ottoman empire. This comprehensive history, by leading Ottoman historian Suraiya Faroqhi, presents the definitive view of the subject, from the production and distribution of different craft objects to their use and enjoyment within the community. Faroqhi sheds new light on all aspects of artisan life, setting the concerns of individual craftsmen within the context of the broader cultural themes that connect them to the wider world. Combining social, cultural, economic, religious and historical insights, this will be the authoritative work on Ottoman artisans and guilds for many years to come. 'A display of unrivalled knowledge of the sources by one of the leading historians of the Ottoman Empire.' - Erik J. Zürcher, Professor of Turkish Studies at the University of Leiden

Arab Orthodox Christians Under the Ottomans 1516-1831 Oct 12 2019 Following the so called "Arab Spring" the world's attention has been drawn to the presence of significant minority religious groups within the predominantly Islamic Middle East. Of these minorities Christians are by far the largest, comprising over 10% of the population in Syria and as much as 40% in Lebanon. The largest single group of Christians are the Arabic-speaking Orthodox. This work fills a major lacuna in the scholarship of wider Christian history and more specifically that of lived religion within the Ottoman empire. Beginning with a survey of the Christian community during the first nine hundred years of Muslim rule, the author traces the evolution of Arab Orthodox Christian society from its roots in the Hellenistic culture of the Byzantine Empire to a distinctly Syro-Palestinian identity. There follows a detailed examination of this multi-faceted community, from the Ottoman conquest of Syria, Palestine and Egypt in 1516 to the Egyptian invasion of Syria in 1831. The author draws on archaeological evidence and previously unpublished primary sources uncovered in Russian archives and Middle Eastern monastic libraries to present a vivid and compelling account of this vital but little-known spiritual and political culture, situating it within a complex network of relations reaching throughout the Mediterranean, the Caucasus and Eastern Europe. The work is made more accessible to a non-specialist reader by the addition of a glossary, whilst the scholar will benefit from a detailed bibliography of both primary and secondary sources. A foreword has been contributed to this first English language edition by the Patriarch of Antioch, John X. It contextualizes the history found in this work within the ongoing struggle to preserve the ancient Christian cultures of the Arabic speaking peoples from extinction within their ancestral homeland.
