The Palgrave Handbook of Media Misinformation provides a comprehensive and cutting-edge resource on the critical debates surrounding fake news and misinformation online. Spanning all continents and linking academic, journalistic, and educational communities, this collection offers authoritative coverage of conspiracy theories, the post-Trump and Brexit landscape, and the role of big tech in threats to democracy and free speech. The collection moves through a diagnosis of misinformation and its impacts on democracy and civic societies, the 'mainstreaming' of conspiracy theory, the impacts of misinformation on health and science, and the increasing significance of data visualization. Following these diagnoses, the handbook

moves to responses from two communities of practice – the world of journalism and the field of media literacy. Digital Arts and Entertainment: Concepts, Methodologies, Tools, and Applications examines the latest research and findings in electronic media, evaluating the staying power of this increasingly popular paradigm along with best practices for those engaged in the field. With chapters on topics ranging from an introduction to online entertainment to the latest advances in digital media, this impressive three-volume reference source will be important to researchers, practitioners, developers, and students of the digital arts. The Media Teacher's Handbook is an indispensable guide for all teachers, both specialist and non-specialist, delivering Media Studies and media education in secondary schools and colleges. It is the first text to draw together the three key elements of secondary sector teaching in relation to media study - the theoretical, the practical and the professional - in order to

support media teachers throughout their careers: Section One: Contexts explores the history of, rationale for, and justification of studying the media from 1900 to the present day, and considers the tensions implicit in the subject caused by opposing views of culture. Section Two: Curriculum comprises seven chapters that focus on studying the media from Key Stages 3 and 4 in English, through GCSE and A Level Media Studies. It also explores approaches to teaching the Creative and Media Diploma, media and citizenship, and practical media production. Section Three: Career Development is designed to support those establishing and leading Media Studies departments and those who are charged with the initial preparation and professional development of teachers. Written by experts involved in the teaching, training and examination of Media Studies, this one-stop resource is packed with illustrative case studies and exemplar schemes of work which can be easily adapted for your own needs. Suggested Reading and Recommended Resources sections at the end of each chapter list additional books, films, DVDs, groups, agencies, organisations, contact details, websites and other materials which will support your teaching even further. The Media Teacher's Handbook is an essential guide to the theory, pedagogy, and practice of media education that will enable you to teach your subject expertly and with confidence. Every year the UK A-Level results bring with them the inevitable tide of questions about the

quality and standard of the exams: Are they getting easier? Is studying for three or four subjects in great detail right in the modern world? Can standards, and pass rates, be sustained? One option already available to schools and students is the baccalaureate system. With reform of the 'gold-standard' A-level likely, and with qualification reform in Wales and Scotland already a reality, this unique book will be essential reading for anyone who needs to know about the post-16 qualifications debate. Covering national and international approaches, the IBO, curriculum reform, and political and educational imperatives the book including expert contributions by the leading figures in the bac debate from the HE, state and independent-schools sectors, as well as from political and research fields.
