The Official ABMS Directory of Board Certified Medical Specialists Jul 28 2020 The Official ABMS Directory is a database that includes over 600,000 physician profiles, including their board certification status. The current edition allows users to... Research physicians' education, hospital and academic appointments, professional memberships, and certification/recertification status. Find board-certified specialists in any geographic area. Locate qualified healthcare professionals for a preferred provider plan, and monitor the qualifications of physicians already in the plan. Refer patients with confidence, and keep up to date on career moves and the whereabouts of colleagues.

ABIA: South and Southeast Asian Art and Archaeology Index Feb 21 2020 Volume Three offers 1643 annotated records on publications regarding the art and archaeology of South Asia, Central Asia and Tibet selected from the ABIA Index database at www.abia.net which were published between 2002 and 2007.

Handbook of Research on Data-Driven Mathematical Modeling in Smart Cities Jun 26 2020 A smart city utilizes ICT technologies to improve the working

effectiveness, share various data with the citizens, and enhance political assistance and societal wellbeing. The fundamental needs of a smart and sustainable city are utilizing smart technology for enhancing municipal activities, expanding monetary development, and improving citizens' standards of living. The Handbook of Research on Data-Driven Mathematical Modeling in Smart Cities discusses new mathematical models in smart and sustainable cities using big data, visualization tools in mathematical modeling, machine learning-based mathematical modeling, and more. It further delves into privacy and ethics in data analysis. Covering topics such as deep learning, optimization-based data science, and smart city automation, this premier reference source is an excellent resource for mathematicians, statisticians, computer scientists, civil engineers, government officials, students and educators of higher education, librarians, researchers, and academicians.

Feminist Perspectives Towards Shashi Deshpande's Novels Feb 15 2022 Shashi Deshpande is one of the most fascinating writers in the genre of Indian English writing to have addressed problems and issues related to women and society, breaking the traditional image of a woman as a daughter, wife or mother, exploring the inner psychological conflicts of a woman and making her women characters emerge as self-dependent individuals with a space of one's own. Through her bunch of

wonderful novels Shashi Deshpande aims to highlight that everyone in this society should be treated as equals, as human beings; there should not be any compartmentalization on the basis of gender. Women should be given equal opportunity and weightage at par with men. This is possible only when women are independent in truest sense and they hold self-reliance and self-esteem. As a writer of human beings in general and women in particular, Shashi Deshpande has wonderfully considered all these aspects in her writings with her ingenious narrative skill and creative spirit. This book has attempted to explore the journey of Deshpande's protagonists in quest of an exclusive identity, which has the essence of individuality and self-confidence and which make them stand apart from the stereotypical tags given by traditional patriarchal society. Amidst hindrances and oppressions of various kinds how Deshpande's women characters come out of their shell to carve a niche for themselves by utilizing their potential and willpower has formed the crux of the book. Comprehensive and analytical in nature, the present book would prove an asset to students of English literature.

Recent Trends in Image Processing and Pattern
Recognition Oct 31 2020 This three-book set

constitutes the refereed proceedings of the Second International Conference on Recent Trends in Image Processing and Pattern Recognition (RTIP2R) 2018, held in Solapur, India, in December 2018. The 173 revised full papers presented were carefully reviewed and selected from 374 submissions. The papers are organized in topical sections in the tree volumes. Part I: computer vision and pattern recognition; machine learning and applications; and image processing. Part II: healthcare and medical imaging; biometrics and applications. Part III: document image analysis; image analysis in agriculture; and data mining, information retrieval and applications.

Mein Freund Ernesto Jul 08 2021 Bericht von einer Reise durch Südamerika im Jahr 1953, bei der einiges vom Charakter und vom Anliegen Che Guevaras deutlich wird. Zugleich eine gute Reisebeschreibung

BollySwar: 1991 - 2000 Jun 07 2021 BollySwar is a decade-wise compendium of information about the music of Hindi films. Volume 7 chronicles the Hindi film music of the decade between 1991 and 2000. This volume catalogues more than 1000 films and 7000 songs, involving more than 1000 music directors, lyricists and singers. An overview of the decade highlights the key artists of the decade - music directors, lyricists and singers - and discusses the emerging trends in Hindi film music. A yearly review provides listings of the year's top artists and songs and describes the

key milestones of the year in Hindi film music. The bulk of the book provides the song listing of every Hindi film album released in the decade. Basic information about each film's cast and crew is provided and detailed music credits are provided. Where available, music credits go beyond information regarding music directors, lyricists and singers, and include the names of session musicians, assistants, programmers, arrangers, mixers, recordists, etc. Where applicable, music related awards are listed. Interesting trivia is listed for most films. This includes information about artist debuts, plagiarised or sampled songs, controversies and stories behind the making of the film and its music. This book is primarily meant as a quick reference for people looking for information related to a Hindi film or a song, but readers can also browse through the book to get an overview of the events that shaped Bollywood music in the decade. Given that Hindi films are a reflection of the Indian society, the reader can also glean insights about the country's socio-political and cultural environment from the book.

Die sanfte Gleichgültigkeit der Welt May 26 2020
Schweizer Buchpreis 2018 Das eigene Leben noch einmal miterleben. Soll man sich das wünschen? Christoph verabredet sich in Stockholm mit der viel jüngeren Lena. Er erzählt ihr, dass er vor zwanzig Jahren eine Frau geliebt habe, die ihr ähnlich, ja, die ihr gleich war. Er kennt das Leben, das sie führt, und weiß, was ihr

bevorsteht. So beginnt ein beispiellos wahrhaftiges Spiel der Vergangenheit mit der Gegenwart, aus dem keiner unbeschadet herausgehen wird. Können wir unserem Schicksal entgehen oder müssen wir uns abfinden mit der sanften Gleichgültigkeit der Welt? Peter Stamm, der große Erzähler existentieller menschlicher Erfahrung, erzählt auf kleinstem Raum eine andere Geschichte der unerklärlichen Nähe, die einen von dem trennt, der man früher war.

Recapitulating Pancreas Development from Murine Embryonic Stem Cells — May 18 2022

Takeaways@33 Apr 24 2020 "An aim to achieve, a dream to fulfill, a target to chase and a purpose to live are all probably just illusions of the mind. The journey is the only reality. In a true sense, every tomorrow is the only destination and giving every tomorrow a better version of 'you', the only aim. " TAKEAWAYS@33 is a poetry collection of perceptions knitted into words humming poetic melodies - soft enough to nourish your hearts and hard enough to strengthen your conscience. This compilation serves as a food for the soul, satiating the deepest contemplations and presenting new avenues to every rambling mindspace. Let the soul absorb and soak in the craft of words !! Let the entangled illusions of the mind loosen a little !! Let the tomorrows be filled with some more epiphanies !!

Computational Intelligence in Data Mining - Volume 1 Jan 14 2022 The contributed volume aims to explicate and address the difficulties and

challenges for the seamless integration of two core disciplines of computer science, i.e., computational intelligence and data mining. Data Mining aims at the automatic discovery of underlying non-trivial knowledge from datasets by applying intelligent analysis techniques. The interest in this research area has experienced a considerable growth in the last years due to two key factors: (a) knowledge hidden in organizations' databases can be exploited to improve strategic and managerial decision-making; (b) the large volume of data managed by organizations makes it impossible to carry out a manual analysis. The book addresses different methods and techniques of integration for enhancing the overall goal of data mining. The book helps to disseminate the knowledge about some innovative, active research directions in the field of data mining, machine and computational intelligence, along with some current issues and applications of related topics.

Cognitive Informatics and Soft Computing
2022 This book presents best selected research papers presented at the 3rd International Conference on Cognitive Informatics and Soft Computing (CISC 2020), held at Balasore College of Engineering & Technology, Balasore, Odisha, India, from 12 to 13 December 2020. It highlights, in particular, innovative research in the fields of cognitive informatics, cognitive computing, computational intelligence, advanced

Apr 17

computing, and hybrid intelligent models and applications. New algorithms and methods in a variety of fields are presented, together with solution-based approaches. The topics addressed include various theoretical aspects and applications of computer science, artificial intelligence, cybernetics, automation control theory, and software engineering.

Technology and Innovation for Social Change
06 2021 Tension exists between technologists and social thinkers because of the impact technology and innovation have on social values and norms, which is often viewed as damaging to the cultural fabric of a nation or society. Since the global business environment is the context in which implementation of technology and innovation takes place, it is widely accepted as the major reason for such conflicts. In this backdrop, this edited book integrates independent research from across the globe. It deals with the nature and significance of technology, innovation and social change as well as the relationships between them, and discusses the significance of social entrepreneurship from social innovation and technology perspectives. Research areas covered are related to the development and deployment of technology, innovation and knowledge in social change, capabilities of institutions, models, role of government and corporate social responsibility and community involvement. Multiple aspects of social change are discussed in the context of India, Mexico, Thailand,

May

Cambodia, Laos, Vietnam, Ethiopia, Nigeria and other African countries. But society does not silently accept technologically enforced changes; sometimes technology is seen as an enemy of inclusive growth and for many, economic development is an anti-thesis of social change. Selected case studies on sector-specific technologies, such as the use of genetically modified seeds in agriculture, which has impacted the market and society, are critically analyzed to develop insights into the adoption of technology and its impact. At the same time it examines policy related issues, without any bias in favor of, or against, a specific technology.

études Dec 13 2021 Etüden nennt Friederike Mayröcker ihre prosaischen Gedichte und lyrischen Prosastücke, Studien also, »Fetzchen« auch, wie sie sagt, splitternd, brüchig und aufs höchste konzentriert, die Sprache zugespitzt aufs Wesentliche allein, der Entgrenzung von Raum und Zeit, der Transposition des gelebten Augenblicks in ein ewiges Hier und Jetzt. Allesamt sind es Variationen auf die Vergänglichkeit des Irdischen – ein Motiv, das längst zum beherrschenden im sich unaufhörlich radikalierenden Alterswerk der Wiener »poeta magica« geworden ist. Übung für Übung wird der Skandal der Endlichkeit des Lebens einem unwiderstehlichen Verwandlungszauber unterzogen, der das beschwerlich Profane in der Losgelöstheit der Poesie zum Verschwinden bringt. Friederike Mayröckers Etüden sind Texte in betörendem Moll, melancholisch, verletzlich, aber

voll des Lebens und prall der Abwehr des Todes:
»NEIN keinen Tod keine Wandlung kein Verderben
kein Hinscheiden kein Abschied kein unisono«.
Kompromisslos einzig dem Schreiben verpflichtet
zeigt sich die große Dichterin, von
unüberbietbarer sprachlicher Kühnheit ist ihre
Poesie.

Wider die Kunst __ Jun 19 2022 Was bleibt, wenn die
Geliebten fort sind? Zwei Schicksalsschläge
erschüttern das Leben des norwegischen Autors
Tomas Espedal: Zuerst verstirbt seine Mutter,
kurz darauf auch seine Frau Agneta. Die Verluste
verlangen ihm eine neue Art zu leben ab, denn er
bleibt mit seiner jüngsten Tochter allein zurück.
Trost kann er dem Mädchen nicht spenden, der
verzweifelte Versuch, die Mutter zu ersetzen,
beraubt das Kind des Vaters. Espedal beginnt Halt
zu suchen in der Erkundung seiner
Familiengeschichte. Woraus, fragt er, erwächst
eine Familie, was bedeuten Liebe und Verrat, was
Mutterschaft und Vatersein. Seine Kunst, das
Schreiben, stellt sich somit in den Dienst des
Lebens. Selten verweben sich in der Literatur
Schreiben und Leben derart eng und unausweichlich
wie in den Büchern Espedals. Der Kosmos seines
Lebens, den er vor dem Leser ohne Schonung
entfaltet, entwickelt ungeheure Sogkraft.
Unbedingt und mit Haut und Haar möchte man
eintauchen in die Welt dieses berührenden Mannes,
sich erfrischen an der Klarheit und
Aufrichtigkeit seiner Sprache.

Two Decades of Re-Emerging Russia: Challenges and Prospects Mar 24 2020 Russia has been re-emerging as a major political and economic power during the last decade. The leadership of Russia claims that the objectives of transition from the former one-party socialist system to a plural multiparty democratic system and centralised planning to market economy are largely achieved. Russia is politically stable and has demonstrated how new political institutions, multiparty system are functioning under three presidents. In the initial years after the disintegration of the Soviet Union, the Russian economy passed through different phases such as crisis, boom and recovery. Russia has largely succeeded in managing its political and economic relations with "Near Abroad" which have witnessed considerable complexities over the last two decades. Russia has demonstrated that its bilateral ties with India in the political and defence sectors have been consistently cordial and close. However, trade and economic relations need to be strengthened. Notwithstanding its major achievements, Russia has been facing several problems, both in its domestic front and in its foreign relations. Some of the major problems on the domestic front are: over centralisation of power, nexus between state authorities, oligarchs and the bureaucracy, growing menace of corruption, surging political reactions by political parties and some former powerful leaders on various political issues,

growing social discontent, issues between different ethnic groups, widening economic disparities among various sections of society and regions. On the external front, Russia has conflicts of interest with some former Soviet republics such as Georgia, Moldova, Ukraine and the Baltic states. Russia's relations with the US and NATO have been highly critical on political and security related issues. There is a need for an objective and critical evaluation of how Russia has managed its domestic and foreign affairs after the collapse of the Soviet Union. What were the successes and failures of Russia in its policies and performance with regard to the social, political and economic developments in the country? This book is an attempt to assess those developments.

Ground Water Pollution Jan 26 2023

Approaches to History Mar 04 2021 History as a social science is arguably more self-reflective than associated disciplines in that family. Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times. Historians on the other hand, tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge. Yet, while this is acknowledged in the practice of research, Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities. Knowledge of Historiography is taken for granted when a scholar plunges into

research. In an attempt to address this lacuna, the Indian Council of Historical Research (ICHR) has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR. The first volume in the series, *Approaches to History: Essays in Indian Historiography* brings to the readers the first fruits of that endeavour. While the essays encompass areas of research presently at the frontiers of new research, scholars will also find the bibliographies accompanying the essays of significant appeal.

Printed Antennas Feb 27 2023 This collection covers different printed microstrip antenna designs, from rectangular to circular, broadband, dual-band, and millimeter-wave microstrip antennas to microstrip arrays. It further presents a new analysis of the rectangular and circular microstrip antenna efficiency and surface wave phenomena. The book Covers the latest advances and applications of microstrip antennas Discusses methods and techniques used for the enhancement of the performance parameters of the microstrip antenna Presents low-power wide area network (LPWAN) proximity-coupled antenna for Internet of Things applications. Highlights a new analysis of rectangular and circular microstrip antenna efficiency and surface wave phenomena. Showcases implantable antennas, H-shaped antennas, and wideband implantable antennas for biomedical applications Printed Antennas discusses the latest advances such as

the Internet of Things for antenna applications, device-to-device communication, satellite communication, and wearable textile antenna in the field of communication. It further presents methods and techniques used for the enhancement of the performance parameters of the microstrip antenna and covers the design of conformal and miniaturized antenna structures for various applications. It will serve as an ideal reference text for senior undergraduates, graduate students, and researchers in fields including electrical engineering, electronics and communications engineering, and computer engineering.

Design and Analysis of High-Power Electromagnetic Impulse Radiator Sep 29 2020

Pulses with sub-nanoseconds / nanoseconds rise time are used in high power radar, sterilization, testing the effect on electronic systems, food irradiation, electromagnetic welding, forming, wastewater processing, defence, medical electronics, etc. There are various methods for obtaining the mentioned low rise time pulses. In this book, a Marx generator, peaking capacitor and peaking switch are used to obtain high amplitude low rise time pulse. A radiating antenna is then connected to the output of peaking stage. Such a system is known as the high-power electromagnetic (EM) impulse radiator. Two such EM radiators were mathematically analysed, simulated, designed, fabricated and the experiments have been conducted in this book.

Feuer brennt nicht Mar 16 2022 Berlin, fast zwanzig Jahre nach dem Mauerfall. Kreuzberg ist gesichtslos geworden und so ziehen die Buchhändlerin Alina und der Schriftsteller Wolf an den grünen Rand der Stadt. Am Müggelsee, wo die Unterschiede zwischen Ost und West noch nicht verwischt sind, leidet Wolf aber zunehmend unter den „Details der Zweisamkeit“. Plötzlich taucht Charlotte auf, eine Geliebte aus der Vergangenheit, und er ergreift die Flucht, befeuert von ihrem offensiven Eros. Als er „die Hölle der Verheimlichung“ hinter sich hat, ist Wolf überrascht: Seine Frau akzeptiert das Verhältnis zu der anderen nicht nur, sie ermuntert ihn sogar. Ralf Rothmann hat einen Roman über das behutsame Zusammenwachsen von Ost und West und eine Chronik des erotischen Begehrens geschrieben, eine dunkel-glühende Liebesgeschichte.

Nagarlok Oct 19 2019

Wisden India Almanack 2019 & 20 Aug 29 2020 The World Cup returned to England after 20 years; the Almanack tells the story of the tournament and pays a tribute to the winners. What did it take to win? Writers include Sir Viv Richards, Ian Chappell, Yuvraj Singh. Mike Brearley discusses India's reaction to the new and untested, and finds a pattern there. British actor and director Harry Burton recalls his playing days with Nobel Laureate and cricket fan Harold Pinter. Former CBI chief R K Raghavan details the match fixing saga that nearly brought Indian cricket to its

knees while Nandan Kamat seeks a law against fixing. Gulu Ezekiel details the collector's life, and what makes it special. Andreas Campomar writes about a commemorative game in Argentina, where cricket has been played for 150 years. Writers include the world's finest, Gideon Haigh, Rahul Bhattacharya, Geoff Lemon, Andrew Fernando, Sidhartha Monga, Sandeep Dwivedi, Neil Manthorp, Peter Lalor, Tim Wigmore. Unmukt Chand describes his struggles while Karunya Keshav and Snehal Pradhan capture the drama and the possibilities in women's cricket around the world. The quality of the writing remains consistently high while there are surprises and breath-taking material galore. The Six Cricketers of the Year and the Personality of the Year take their place among the other Wisden India Almanack staples: obituaries, book reviews, chronicles and the editor's notes. Mumbai's dramatic IPL win and the tournament details and commentary give the season at a glance. Who are the some of the country's best-known club cricketers, those who played for years and became local celebrities but seldom went on to bigger things? Wisden India Almanack tells their story. The international season, the domestic season complete with the details of the first class and other matches and records from the lower levels to the international, have been meticulously collected in this, the most respected annual cricket reference manual.

Blauschmuck Dec 25 2022 Katharina Winklers
Debütroman Blauschmuck beruht zur Gänze auf wahren Begebenheiten. Er macht die Abgründe von Abhängigkeit und brutaler Unterdrückung anschaulich und erzählt vom Leben einer Frau, in dem Liebe und Gewalt nicht nur untrennbar, sondern nicht mehr zu unterscheiden sind. Filiz wächst in einem kurdischen Dorf in der Türkei auf. Sie ist zwölf, als sie sich in den um wenige Jahre älteren Yunus verliebt und mit ihm von einem gemeinsamen Leben im Westen träumt. Mit fünfzehn heiratet sie ihn – heimlich und gegen den Willen ihres Vaters. Doch mit der Hochzeit platzen auch die Träume von Freiheit und Autonomie: Statt Jeans trägt Filiz jetzt Burka; gemeinsam mit den drei Kindern, die in dieser Ehe geboren werden, ist sie der körperlichen und seelischen Brutalität ihres Mannes und ihrer Schwiegermutter ausgesetzt. Daran ändert auch die Emigration der Familie in den Westen nichts – vorerst. Denn nach einer neuerlichen Eskalation der Gewalt gelingt Filiz das vermeintlich Unmögliche: die Befreiung aus physischer und psychischer Abhängigkeit.

Intelligent Cyber Physical Systems and Internet of Things Feb 03 2021 This book highlights the potential research areas of Information and Communication Technologies (ICT), such as the research in the field of modern computing and communication technologies that deal with different aspects of data analysis and network connectivity to develop solution for the emerging real-time information system challenges; contains a brief discussion about the progression from information systems to intelligent information systems, development of autonomous systems, real-time implementation of Internet of Things (IoT)

and Cyber Physical Systems (CPS), fundamentals of intelligent information systems and analytical activities; helps to gain a significant research knowledge on modern communication technologies from the novel research contributions dealing with different aspects of communication systems, which showcase effective technological solutions that can be used for the implementation of novel distributed wireless communication systems. The individual chapters included in this book will provide a valuable resource for the researchers, scientists, scholars, and research enthusiasts, who have more interest in Information and Communication Technologies (ICT). Encompassing the contributions of professors and researchers from Indian and other foreign universities, this book will be of interest to students, researchers, and practitioners, as well as members of the general public interested in the realm of Internet of Things (IoT) and Cyber Physical Systems (CPS).

Acta Cytologica Oct 23 2022 Includes abstracts of papers of various symposia

Indian Doctoral Dissertations in English Studies Sep 22 2022 Indian Research In English Studies Has A Long And Rich Tradition But, Unfortunately,

It Has Failed To Make Any Notable Impact On The Academic World. This Is Largely Due To The Fact That Most Of The Indian Doctoral Dissertations In English Studies Lie Buried In University Libraries And Are Inaccessible To Aspiring Researchers. No Attempt Has Been Made So Far To Establish Any Link Or Co-Ordination Between Research Activities Of Different Universities/Institutes. This Has Resulted In A Total Neglect Of Earlier Research And Unnecessary Duplication. The Present Volume Is Designed To End This Unhappy Situation By Providing A Complete And Authentic Account Of Research Carried Out In Indian Universities Not Only In British, American, Commonwealth And Indian English Literature But Also In Comparative Studies, Translation Studies, Language, Linguistics And ELT. Entries On The Above Mentioned Are Arranged Subject-Wise In Chronological Sequence And Are Followed By A Separate Section On Individual Authors In Alphabetical Order. Thus It Provides A Consolidated View Of Indian Research In English And Serves As An Invaluable Reference Manual. It Is A Step Towards Orientation And Systematisation Of Indian Research In English Studies And Will Help To Make Research A Well-Informed, Well-Planned And Meaningful Exercise.
