Provides technical guidance on how to reduce the risk of flood damages to manufactured homes. Addresses techniques for elevating the manufactured home above anticipated flood levels and for adequately anchoring against flood and wind forces. Also includes "mobile homes." 38 tables, figures and photos. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Readers of Mike Uva's GRIP BOOK who are interested in more detailed information on the work of the grip department will welcome his new rigging manual, clearly detailing all the ways to mount cameras and lights both on a set as well as on location. The book covers the latest truss systems, rigging equipment and portable stages, as well as lifts, boom arms and camera mounts for every type of moving vehicle. The book is not limited to equipment specifications, however; Uva offers tips and tricks throughout in order to make the process of setting up and shooting safer and more efficient. Grips often need to invent makeshift solutions in a short time, and Uva shares many such devices developed over his years in the film and TV industry. This book will help grips and key grips move on to the bigger feature projects and commercials that require this equipment. It will also be useful for directors of photography and

producers in pre-planning the required equipment for specific shots. Written to the core practical units of competency from the UEE11 Electrotechnology Training Package, Electrical Trade Practices 2e by Berry, Cahill and Chadwick provides a practical yet comprehensive companion text, covering the practical units within the UEE30811 Certificate III in the Electrotechnology Electrician qualification. Electrical Trade Practices is the practical volume to accompany Phillips, Electrical Principles. Includes articles on international business opportunities.
